

# KOYA TAKAHASHI

UI/UX Designer

I specialize in crafting empathetic user experiences that deeply resonate. With perseverance and professionalism, I deliver exceptional results. By fostering inclusivity and open communication, I unlock my team's full potential. Understanding user emotions, I create impactful designs that forge meaningful connections. Through collaboration, compassion, and optimizing team dynamics, I strive to deliver outstanding results and positively impact users' lives with thoughtful design solutions.

## EXPERIENCE

### Web Designer at Rabona Inc. (Web Design Agency in Gifu, Japan)

Aug 2021 - Dec 2022

- Transformed design concepts into pixel-perfect, responsive interfaces
- Implemented clean and efficient code using HTML and CSS
- Prioritized responsive design principles for cross-device compatibility
- Implemented user-friendly interactions, intuitive navigation, and smooth animations
- Contributed to the agency's success in delivering visually stunning, user-friendly websites

## PROJECTS

### Kampo no Nozaki Yakkyoku (Website)

<https://nozaki-kanpou.com/>

Jul - Oct 2022

- Contributed as a front-end developer using WordPress.
- Created the design of sub-pages within the project.
- Edited manuscripts to ensure content accuracy and consistency.
- Edited and enhanced photos to optimize visual appeal.

### Katagiri (Website)

<https://fukuroya-katagiri.jp/>

Nov 2021 - Jan 2022

- Took charge of coding all pages using WordPress.
- Collaborated with the Web director/designer to integrate their designs into functional WordPress pages.
- Tested the compatibility of the WordPress website across different browsers and platforms.
